## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election of Group II, claims 32-44 and 46-54 in the reply filed on 03/07/2010 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### **Claim Objections**

Claims 35, 37-40, 46, and 48-49 are objected to because of the following informalities: The F<sup>18</sup> moiety has to rewrite as <sup>18</sup>F in all the claims. Appropriate correction is required.

### **Double Patenting**

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29

Art Unit: 1618

USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 32-33, 35-44 and 46-54 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-2, 5-6 and 9-10 of U.S. Patent No. 7,270,799. Although the conflicting claims are not identical, they are not patentably distinct from each other because instant application claims compounds including pharmaceutically acceptable salts, hydrates, solvates, and metal chelates of the compound represented by the structure (II), (III), (IV), (VII), (IX) and (X) and U.S. Pat. 7,670,590 also disclose same compounds used for detecting PNOM-cells. Thus, the claims are readily envisaged by the teaching of the U.S. Pat. 7,670,590 and the claims are properly included in the rejection.

### **Allowable Subject Matter**

The following is a statement of reasons for the indication of allowable subject matter: The claims 35-40 and 46-52 are allowable. A through search of the prior art did not bring forth any compounds represented by formula (IV, V wherein J is  $^{18}\text{F}$ , XI, XIII wherein D is  $^{18}\text{F}$  and XIV).
